## NOTES:

- 1) Inactive for new design means MIL-STD-40051B may still be used for existing systems if time/cost constraints do not permit use of MIL-STD-40051-1 or MIL-STD-40051-2. Every effort should be made to transition to MIL-STD-40051-1 and/or MIL-STD-40051-2 as soon as possible. MIL-STD-40051-1 and/or MIL-STD-40051-2 must be used for new systems.
- 2) MIL-STD-40051 has replaced MIL-M-63036, MIL-M-63038, MIL-M-63041, MIL-M-49502, MIL-STD-335, MIL-M-63004, MIL-STD-361, MIL-M-63014, and MIL-M-63030. These documents were canceled upon completion of MIL-STD-40051. They should not be cited in contracts any more.
- 3) The WAIVER (Y/N) column indicates whether or not a waiver is required. No waivers are required for TMSS documents per DOD 4120.24-M, page 25, paras C3.8.4 and C3.8.4.3.3, dated March 2000, even though they may be detail documents.
